

The KG&E Team

Kelly Generator & Equipment, Inc. (KG&E) was founded in 1992 by John E. Kelly, Jr. John has built KG&E from the ground up through hard work, dedication, and experience. John prides himself on being an honest, straight-forward business man who leads his employees to be the same. KG&E has a solid executive team in place that will consistently manage, encourage, coach, and mentor you. With territories located near major cities including Alexandria, Annapolis, Baltimore, Charleston, DC, and Pittsburgh, we can offer you a competitive market area.

KG&E offers standard business hours, competitive salaries, and a full array of benefits to include: medical, dental, vision, profit sharing, and much more. KG&E has a growing generator technician internship program and an extensive training program to provide you with all of the knowledge you will need to hit the ground running. We also offer extended training through our PDSS classes, Basic, Advanced, Level 1 and Level 2 Generator classes, and EGSA certified training courses. No one is left behind at KG&E; take control of your future and get on board today.

EGSA Technician Certification

KG&E greatly supports EGSA (Electrical Generating Systems Association) and the Technician Certification program. KG&E currently employs Master Technicians, one of which has served on the founding Certification Committee.

In the past, your word was the only assurance that your technicians are skilled and knowledgeable. But now, through EGSA's Electrical Generator Systems Technician Certification Program, there is a way that you can back up those words with objective evidence of your technicians' proficiency.

EGSA offers you a big advantage: For the first time in our industry, we have an objective and accurate way to determine generator technician proficiency.

EGSA has determined that there is no reason why the test could not be fairly applied to any NAFTA technician. Keep in mind that KG&E is a proctor for the EGSA Technician Certification test. If you are interested in taking the test, contact our Training Department.

Other Companies Offer You A Job, KG&E Offers You A Career.

At KG&E we pride ourselves on ensuring power above and beyond all others...

Power to move **Faster**: Emergency Services available 24/7! There is always a live operator available during normal business hours. We have an answering service to take your call after hours and on weekends.

Power to **Reduce Risks**: We can assist you with that upcoming bid or planned event. Whether you're providing power for a construction trailer, replacing switchgear on a large project, or planning a special event, rest assured that KG&E will custom fit a quote just for your needs.

Power to **Avoid Downtime**: We offer 24 hour fueling services. When natural disasters arise and emergencies happen, we are waiting on standby to provide you with a rapid response to your power needs.

Power to **Operate Smoothly**: We take pride in our fleet at KG&E. With on-site maintenance we can ensure optimum performance of our equipment.

Power to **Focus**: We are solely focused on power generation.

Power to **Save Time and Money**: We have engineering support to assist you with all of your design and turnkey opportunities. Our technicians are always up to date on the latest industry training so you can rest easy knowing you are in great hands when our expert technicians service your generator.

Power to **Increase Knowledge**: We offer technical training to generator technicians and maintenance personnel on location in our new training center. We also extend our technical training to professional engineers both on and off site which can be used towards your CEU's and PDH's.

Our Vision, Our Values, and Our Mission

Our Vision

Our vision is to be the most respected vendor for comprehensive power solutions for our marketing area. Our employees are treated fairly and respectfully and are excited to be on our team. Our customers consider our service and commitment to be unparalleled.

Our Values

Operate with Integrity
Operate Safely
Operate Unselfishly
Achieve Excellence through Teamwork
Have Fun

Mission Statement

KG&E strives to provide our customers with quick and professional solutions to their electrical power needs. KG&E operates on three solid principles: Ensure optimum quality in every product sold; professional, honest, straight-forward relationships with our customers; and superior service for the life of our products.

Employee Testimonials

Why KG&E is the right place for you

"Coming to work for KG&E was one of the best decisions I've made. Professional, honest, and hard working employees make me want to come to work everyday and give my all. We are not just employees here, we are a team."

"From the very first day on the job I felt welcomed and appreciated. Everyone at KG&E works as a team willing to share knowledge and helping you along your way. Everyone gets along, we all work very hard, we enjoy each other's company and we laugh a lot. I can honestly say I always want to work on any given day."

"KG&E has given me the opportunity to grow as a professional and an individual. Through the mentorship management provides, the guidance and support of my co-workers and our customers, KG&E offers the ideal platform to make your career everything you want it to be and more."

"Coming on board with Kelly Generator has been one of the best career decisions I've ever made. KG&E truly is sensitive to their employee's needs, aspirations and is committed to the TEAM...and...WE HAVE FUN!"
